

About Us

We established our manufacturing unit in the year 1998 as a small SSI unit at GIDC, Navsari, Gujarat, India. Our city is located near Surat, which is well known as the "Diamond City" and the "Biggest Textile Hub" of Asia. Over the years, we expanded our operations, ensuring premium-quality products crafted with expertise and precision.

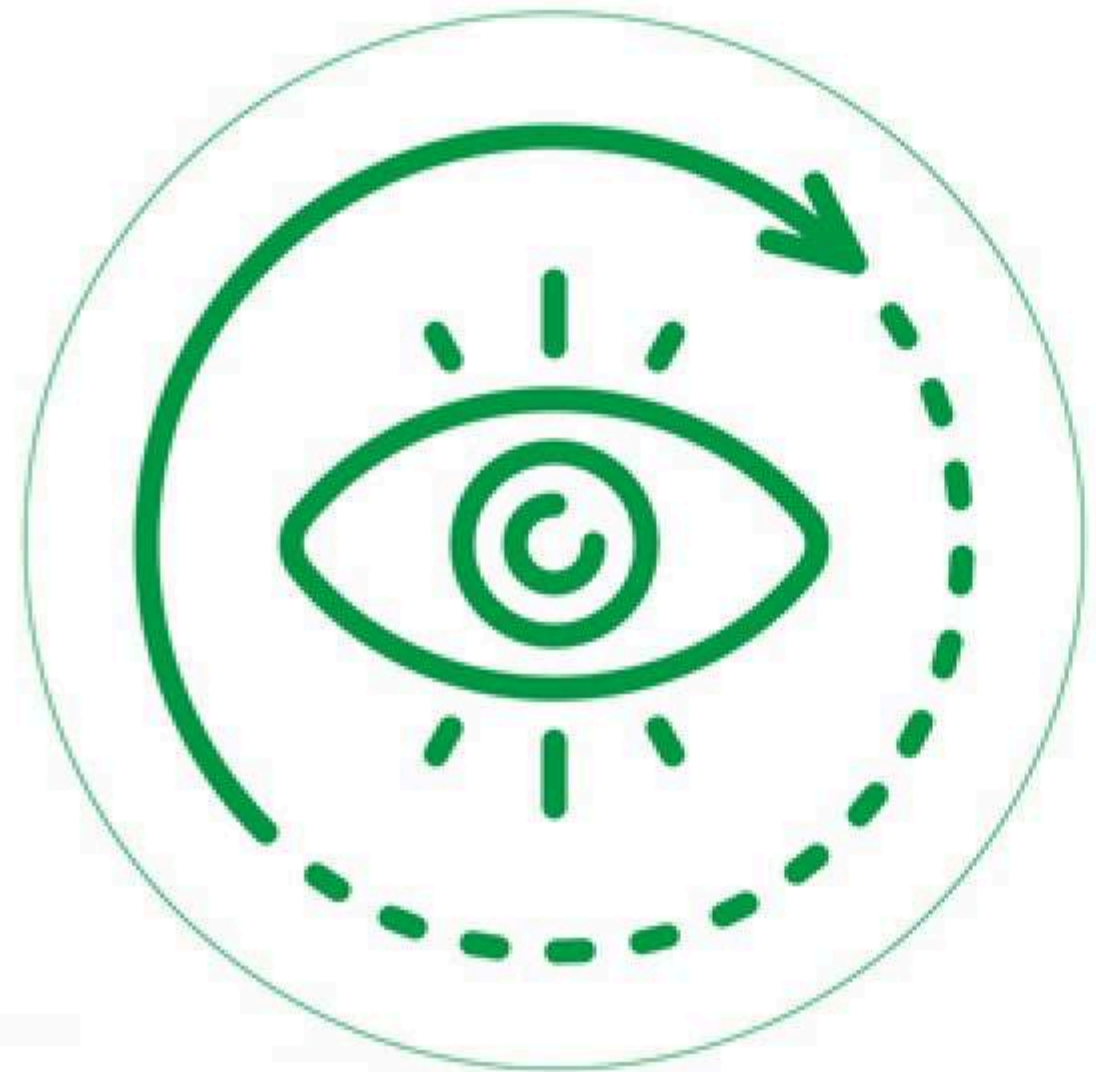

Imperial Fruits & Nuts is an India-based company with state-of-the-art manufacturing units in Kashmir and Gujarat and a sales operation office in Kurukshetra, Haryana. Initially, we marketed our products in Gujarat and received tremendous support from reputed nutritionists and health experts. We continuously refined our offerings based on valuable feedback to enhance quality and efficacy. Once we achieved full satisfaction, we expanded our product range to various states across India. To ensure a successful nationwide launch, we carefully selected experienced marketing professionals. Our products have gained widespread acceptance, earning the trust of health-conscious consumers, distributors, and retailers, making us one of the fastest-growing nutritional SSI units in India.

We are currently exporting our products to multiple countries, including the USA and the UK, while actively expanding our global presence.
